DAVEY DEEP WELL PRESSURE PUMPS

Rugged, reliable single stage centrifugal pumps with deep well injectors, driven by Davey's TEFC motor. Pump fitted with pressure switch for easy conversion to automatic operation. Automatic demand response valve fitted as standard to protect against loss of prime from over pumping.

Pumps do not include injectors. Please contact us in regards to injectors.

Used in conjunction with Deep Well injector kits these pumps are ideal for supplying high pressure water from bores to 42m depth for:

- Water supply
- Tank filling
- Stock watering
- Sprinkler supply

CROPLANDS

QUANTUM MIST ULTRA TOWER - the solution for tall tree growers

The Quantum Mist™ Ultra Tower is ideal for spraying larger tree crops such as macadamia, citrus, avocado and mango. The Ultra Tower allows you to cover ground faster with time saving and reduced fuel costs, compared to traditional air blast technology.

The mast of the Quantum Mist™ Ultra Tower stands 5m tall with 4 fan heads either side.

Come into The AgriCentre on Campbell Street to discuss options on the complete Croplands range.

SPRAY SEASON IS HERE! IS YOUR SPRAY UNIT CALIBRATED AND WORKING CORRECTLY? CONTACT THE SUNFAM SALES TEAM TO GET YOUR UNIT READY FOR THE SEASON.

FARM CHEMICAL STORAGE

Our Class 3 Dangerous Goods Shipping Containers are specialist containers that are custom built for your safety and security. Our Dangerous Goods containers are fully ventilated and contain bunding to contain spills. They are useful for storage of any dangerous goods that need to be securely and safely stored on the farm, building site or mine.

8FT from
\$6799*

Our Dangerous Goods containers are built in accordance to AS1940-2004. ***Users are reminded that AS1904 is only a code, so you should also check that you comply with any ancillary requirements for the particular product you are storing with the container.
