DID YOU KNOW ?

Sunfam have accredited staff that can design, manufacture and install irrigation systems; whether it be domestic or rural applications, small back yard, multiple pump units, complete filtration units, fully automated irrigation systems, and many other applications.

We have an extensive range of equipment that can travel throughout the area to service a wide range of farming ventures. Our trained staff are available to come to your farm and provide a quote at any time so please feel free to contact us. **These are just a few examples of our extensive range of equipment and services.**

- Supply of Avokah travelling irrigators
- Poly welding on site up to 630mm
- Ditch Witch Trencher
- 2 Crane trucks
- Underground mainline installation
- Repairs to mainline and sub mains
- Borehole pump removal and overhaul
- Water meter installation and validation
- Diesel Pump installations

- Variable speed drives to maximise efficiency & reduce power costs
- Supply and install Centre Pivots/Linears
- 5 Tonne and 14 Tonne Excavators
- Pump stations for river banks and dams
- Filtration systems for various applications

The 2088 Series diaphragm pumps deliver reliable performance of 11.3 lpm @ 45 psi making them ideal for small booms and liquid fertiliser applications.

SHURFLO

\$285.00*

\$195.00*

The 8000 Series diaphragm pump is Shurflo's most widely used agriculture pump.

Viton valve material and santoprene diaphragms assures maximum chemical resistance. 6.8 lpm with 107psi pressure switch.

FALL ARMYWORM ~ BIOSECURITY THREAT

Fall Armyworm (*Spodoptera frugiperda*) - refer images below, is an exotic pest that has been detected in Queensland. It is reported to feed on more than 350 plant species of vegetable and fruit crops, including sugarcane, corn and bean, causing significant economic losses overseas. Damage caused by fall armyworm can reduce plant growth, significantly reduce crop yield and cause plant death. Severe infestations can destroy crops rapidly.

Industry bodies have been successful in securing emergency minor use permits from the Australian Pesticides and Veterinary Medicines Authority (APVMA) for use on fall armyworm.

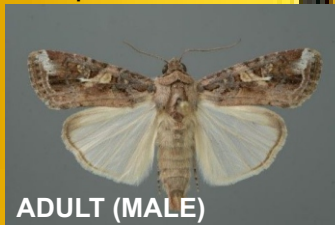

Please contact one of our friendly sales team for recommendations on suitable products for you, according to your crop situation.
