

\$150,000 INSTANT ASSET WRITE OFF NOW EXTENDED UNTIL DECEMBER 31, 2020

FIREBUG DRIP TORCH

4 Litre tank
- ideal for
burning
cane and
maintaining
fire breaks

\$335.00*

Tank is constructed from aluminium; both machined and coated. Brass fittings for longer life & durability.

DICAMBA 1 litre

For the control of Clover, Bindy-Eye, Dandelion and other broadleaf weeds in lawns.

\$29.50*

PURETEC BORESAFE

Easy to apply biodegradable chemical to break down the iron build up in bores, bore pump and pipework.

5kg \$86.00

20kg \$295.00

BEAVER TIE DOWNS

Beaver Ratchet Straps
2500kg x 9m

2 for \$40.00*

HEAVY DUTY

NORTHSTAR DIESEL TANK

200 litre capacity
40l/min pump
Auto shut off gun

\$1070.00*

SOLO 417 KNAPSACK

Rechargeable Sprayer
12 volt pump
2 speed spray volume

\$345.00*

Bainbridge Ezi-Action Drum Pumps - Non Siphon Safety Pump

Tired of spilling chemicals and leaky drum taps??

- ~ Trusted leader in chemical resistant hand pump dispensing from bulk containers. The world's best!
- ~ Known for superior quality, durability and features that surpass anything on the market today.
- ~ Make dispensing safe, effortless and free from frustration whether pumping the most corrosive chemical or liquid food.
- ~ "An investment that will last for years".

From \$75*

- ~ Supplied with the full range of Ezi-action adapter fittings required to fit the many containers and drums on the Australian market and to support the recycling of drums and containers.
- ~ Available in two sizes and three colour options : **GREEN, RED and BLUE** to enhance safety.
- ~ Colour differentiation controls the risk of cross contamination or mishandling during chemical dispensing. It ensures the pumps is used for it's designated purpose, in its designated location.

- ~ Permanent differentiation is assured with a coloured ball handle.
- ~ The non-siphon tube is chemical resistant, food safe PVC and is fitted with the unique chemical resistant Ezi-action Non-Siphon Check Valve. Meaning drum contents cannot be accidentally lost to waste when a non-siphon tube is fitted as it fits securely over the lip on the spout of the Ezi-action Drumpump.

~ **Non-siphon pumps available for 20L to 200L containers**

**Efficient
stabilised
nitrogen...**

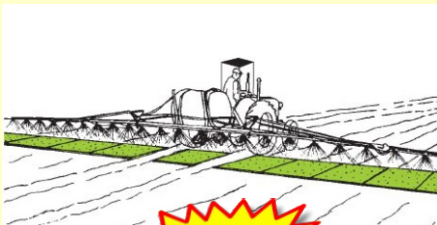

ENTEC® is an ammonium stabiliser for nitrogen fertilisers. ENTEC fertilisers help limit nitrogen losses, assisting your crops to use nitrogen more efficiently.

Nitrogen loss through leaching and denitrification can account for up to 60% of applied nitrogen fertiliser depending on soil type and seasonal conditions.

By minimising nitrogen losses, ENTEC can provide a more sustained nitrogen supply to the crop in line with crop needs, resulting in yield and quality improvements.

- ENTEC helps protect against nitrogen losses for improved crop uptake and potentially higher yields
- ENTEC gives crops access to ammonium nitrogen for better growth and greater phosphorus, copper and zinc uptake
- ENTEC reduces nitrate flushes for more consistent, quality produce
- ENTEC gives crops a more continuous supply of nitrogen with potentially fewer applications for better workload efficiency on

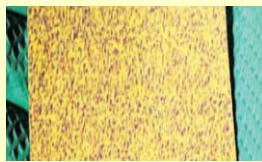

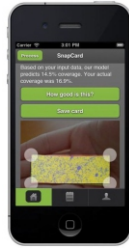

WATER SENSITIVE PAPER allows the end user to view coverage and drift analysis quickly and easily on their own property. As the name suggests, as soon as water touches the paper, the impact point turns blue clearly indicating the level over coverage currently being obtained.

**\$79.00*/
50 pack**

The **SnapCard APP** is simple to download and use, and can help measure the level of spray coverage achieved

Agrichem ENDURANCE CAL

100% Soluble to correct calcium and sulphur deficiency in plants

BENEFITS OF ENDURANCE CAL

- Free of chlorides and nitrate, ideal and safe for fruiting.
- Helps to open soil pores for efficient water dispersion in high PH/sodic soils.
- Calcium induced displacement of sodium in sodic soils.
- Known reaction times allows for more precise soil management.
- 1 tonne of Gypsum equivalent in 113l of product due to better solubility and calcium availability.
- Provides active calcium and sulphate ions for better plant growth

**Tree Crops
Fruiting Vegetables
Leafy Vegetables
Root Vegetables**

Available in 20lt and 100lt shuttles

ALL CLEAR DS

SPRAY TANK CLEANER AND DECONTAMINATOR

ALL CLEAR® DS is a balanced liquid formulation containing sequestrants, surfactants and detergents, and was developed to handle a wide range of difficult to remove agricultural chemicals.

ALL CLEAR DS is specifically formulated to remove deposits and other debris, including oily substances from tanks, hoses, booms, transfer and mixing systems, filters, screens and nozzles.

Removes damaging residues from your boom sprayer.
