* pending eligibility

T-TAPE DRIP TAPE

One of the most recognized and trusted drip tape brands in the market, T-Tape Drip Tape is used in a variety of crops around the world to help reduce water consumption, increase crop quality, and increase crop yields.

T-Tape Drip Tape can be installed on the ground, under plastic, or even subsurface.

Because of T-Tape's material strength, design and quality production standards, it's the drip tape that you can count on year after year.

T-Tape is available in a range of configurations, including various lengths, wall thickness, emitter spacings and flow rates.

This helps growers match individual growing situations with maximum yield benefits.

ECO-PRIME® PURPLE (SF35)

Rock mineral fertiliser for balanced growth and fruiting

KEY BENEFITS:

- Durable in Extreme Conditions
- Suitable for Light/Heavy & Saline Soils
- Biologically Activated

Tailored to Australian conditions, Eco-Prime®Purple(SF35) is gentle yet strong, providing strong consistent nutrition to sensitive plants.

Eco-Prime®Purple(SF35) is a versatile NPK fertiliser combined with trace elements to ensure continuous nutrition. It meets the requirements of vegetables, fruits, vines, flowers, turf and ornamentals.

CROPPAK SPRAYERS

30, 60 and 100 litre 12V Sprayers

- Equipped with on-demand 6.8L open-flow pump
- 6m of spray hose
- Spray lance
- Electrical power lead with on/off switch.

NEW IN-STORE

Just arrived in-store at the Sunfam Agri-Centre...

GP Flupropanate in a conveniently sized 750g Shaker Container

This product is made in Australia and designed for use in Australia's environmental conditions.

Some grass weed species controlled in pasture and non-crop situation include Parramatta Grass, Giant Rats Tail Grass, Coolatai Grass and African Lovegrass.

Winter and Spring is the ideal time to apply this product on your problem grass weed species, so don't miss your chance to get the upper hand.

Please contact your local Sunfam Representative to discuss your Weed Management options.
